## WORKING EXPERIENCE

### Data & Digital Solutions Consultant

*Fagro Consultancy B.V. (Netherlands) | march 2024 - present*

- I am currently supporting MGG International as BI Specialist where the recent digital transformation required new adjustments in Tableau and TimeXtender data warehouse
- I am responsible for creating a smooth data flow by automating the manual reporting processes and continuously developing dashboards to help the Board of Directors in their decision-making
- the close and efficient cooperation in our BI team allows us to put the concerns of the stakeholders into perspective and build a BI infrastructure that everyone can benefit from

### Smart Service Project

*Maastricht University - CGI (Netherlands) | february 2023 -june 2023*

- our team created a smart service for EV charger allocation and optimization as a part of a challenge initiated by CGI
- we choose Goederenhub in Maastricht as our stakeholder, and had deep-insight meetings with the owner to identify the needs. We conducted research in green transition and collected exceptional data about deliveries with our self-made surveys.
- As a result, we provided Goederenhub a dashboard with the necessary KPIs for the future EV transition

### ICT intern

*Gallo-Roman Museum (Belgium) | february 2023 -june 2023*

- creating a data strategy for a cultural institution as part of my Master Thesis
- visitor data analysis, data visualization
- consultancy for e-ticketing transformation, presentation about the research for the board members

### Erasmus Student Network

*ESN Corvinus (Hungary) | september 2020 – september 2021*

- organising and coordinating events for exchange students
- social skills in international atmosphere
- leadership skills, teamwork coordination

### General Office Administrator

*Gránit- Pólus Plc. | february 2020– september 2020*

- use of Tax Agency's online billing program
- orientation in accounting software
- performing basic administrative tasks
